

BOGGARAPU LUTHER GRAHAM

Aspiring AI Engineer

Phone: 6309334175

Email: luthergraham2007@gmail.com

Location: Jammu, India

LinkedIn: <https://www.linkedin.com/in/luther-graham-boggarapu-83ab31381>

GitHub: github.com/LutherGraham07

Professional Summary

Passionate about building intelligent solutions through Machine Learning, Deep Learning, Robotics, and Data Engineering. Strong foundation in programming, AI systems, and analytics with a drive to solve real-world problems using intelligent technologies.

Technical Skills

Programming Languages	Python, SQL, R, JavaScript, C
Libraries & Frameworks	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, Keras
Tools & Technologies	Git, GitHub, VS Code, Jupyter, Tableau, Excel
Core Competencies	Machine Learning, Deep Learning, Data Analysis, Robotics, Robotic Controls, Data

Projects

Personal Portfolio Website

Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and achievements.

Data Analysis Project

Performed exploratory data analysis on real-world datasets using Python, Pandas, NumPy, and Matplotlib to extract meaningful insights and visualizations.

Student Management System (C)

Built a console-based application in C to manage student records with functionalities like add, search, update, and delete.

WealthWise – Personal Finance Tracker

Developed a web application using HTML, CSS, JavaScript to help users track income, expenses, and savings with interactive charts and local storage.

Education

Central University of Jammu

Bachelor of Technology in Computer Science

2025 – 2029

Certifications

- Python for Data Science – IBM
- Machine Learning – Stanford (Coursera)
- SQL for Data Science – Coursera
- Deep Learning Specialization – DeepLearning.AI (Coursera)

Internships & Simulations

British Airways – Data Science Job Simulation (Forage)

- Completed a simulation focused on how data science drives business success at British Airways.
- Scraped and analyzed customer review data to uncover key insights.
- Built a predictive model to understand factors influencing customer buying behaviour.

Deloitte Australia – Data Analytics Job Simulation (Forage)

- Completed a data analytics simulation involving business analysis and forensic tasks.
- Created interactive dashboards using Tableau to communicate insights.
- Used Excel to classify and analyze data to support business decision-making.

Johnson & Johnson MedTech – Surgical Robotics Simulation

- Worked on a surgical robotic arm simulation focused on precision and control systems.
- Measured system errors such as time delays and optimized robotic movement accuracy.
- Improved robotic control systems for safer and more precise surgical operations.
- Applied Python and robotic control concepts during simulation tasks.

Strengths

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Attention to Detail
- Continuous Learning

Additional Information

- Actively learning: Deep Learning, NLP, MLOps, and Robotics
- Enjoys building AI-powered projects and exploring automation
- Open to internship and graduate opportunities in AI/ML and Robotics engineering roles
